Introduction

This quarterly bulletin is produced by the National Statistics Office NSO in the Ministry of Finance and Treasury. It provides information on international arrivals comprised of the returning resident, intending resident, and visitor. The explanation of these categories is provided in Appendix 1 of the bulletin.

Visitor category comprised the bigger share of the bulletin, (portrayed in tables 1 to 8); compared to the returning and intending resident category portrayed in Tables 1, and 9 to 12. The bulletin includes twelve tables and eight charts stretched over cross-field tabulation, preferably to meet information need of local, regional, and international researchers.

The information captured through a self fill Disembarkation form that was completed by all disembarking passengers. The forms were collected by Immigration officials at international check-in counters on arrival. The coverage of the bulletin is complete.

Sheer acknowledgement is owed to the Immigration Department for their continuous support of this bulletin, by providing an office space and permitting the statistics office to input completed forms. With the official arrangement in-placed between the Statistics and Immigration departments this bulletin is possible.

The inclusion of four new tables 9 to 12 in Appendix 2 of the bulletin anticipates to complete the distribution portrait of Intending and Returning resident. The distribution is by age groups, occupation and by country of usual residence.

Data limitations, highlighted in the previous bulletin still remain, though some have substantially improved but noted again for ease of reference as follows:-

- Data entry duplication by the Immigration and Statistics departments was a long standing issue. Discussion of the issues had been made by the two departments, though resolution has been recognized, this was yet to be put in place.
- Timeliness of visitor statistics has improved but the bulletin may be delayed by the production process.
- The information contained in the bulletin is based on information captured from the data source by the SINSO.
- The monetary value of the industry is not available and thus not possible in this bulletin. The concepts and definitions of the arrival categories were included in Appendix 1. The symbols that are likely to be used are:
 - zero if representing a value
 - negative change if representing a percentage change
 - + positive change if representing a percentage change
 - p preliminary figure, subject to revision
 - r revised
 - e estimate
 - n/a not available

Concepts and Definitions

Persons entering Solomon Islands classify themselves into three (3) categories; returning resident, intending resident, and visitor. The concepts and definitions of the various categories are as follows:

(i) Returning residents

- Solomon Islanders and non-Solomon Islanders who have left the country and are returning to continue their residence.
- Non Solomon Islanders includes resident permit holders and Diplomatic officials, and their immediate family members. This may also includes legal or official arrangements that fall out side of the above.

(ii) Intending residents

Non-Solomon Islander who wish to take up residence in Solomon Islands.

(iii) Visitors

- Any traveller who is not a Solomon Islander and who purposely spend less time at most a period of 120 days², in the country and with the intention and purpose of visiting.
- Tourist
 - Visitors who further classify themselves stating their visit are purposely for 'holiday and vacation'. This exclude, tourist arrivals by cruise ships.
 - Wife accompanying husband on business purpose is a private tourist unless also working.
 - World Tourism Organization WTO definition of Tourism:
 It comprises the activities of persons travelling to and staying in places outside their usual environment for not more than a year for leisure, business and other purposes not related to the exercise of an activity remunerated from within the place visited³.
